**RESOLUTION HITS COURTS,  
JURIES, AND HIGH TAXES**

An ultimatum, threatening a state-wide tax strike if the revenue system is not at once revised, accompanied the resolution which was presented last week to the 65th general assembly by the Illinois Taxpayers Association. The resolution, passed by the taxpayers at the annual statewide conference at Bloomington, recommended revenue reforms to the end that all forms of wealth may be assessed on a uniform basis; that overlapping forms of local governments be eliminated; and that salaries of public officials be reduced in accordance with present economic conditions.

**Urge Relief Measures**  
As a relief measure to aid the thousands now unemployed, the Association's resolution urged Governor Henry Horner to appoint a commission to study conditions in the several counties and to recommend a program by which the people dependent for relief, through a cooperative effort, may be able to obtain for themselves the necessities of life.

The full text of the Taxpayers resolution follows:

The members of the 65th General Assembly are respectfully requested to enact such legislation as shall provide:

A. That an amendment to Article IX (The Revenue Article) of the present Illinois Constitution be submitted at the earliest practicable date to the electors for adoption to provide for a modern and efficient basis for revenue in the classification, valuation and assessment of property.

B. For the consolidation and simplification of the numerous overlapping local governments; the reduction of salaries to conform to existing economic conditions; the elimination of all superfluous employees; the reduction of election expense by combining State, County, City and Township election on one day.

C. That County Boards of Supervisors be given authority to fix the amount of the salaries of all County Officers.

D. That the State Auditor be empowered and directed to establish uniform systems of accounts, records and blank forms which shall be used by all County Officers, and that it shall be the duty of the State Auditor to audit the books of the Officers of each County at appropriate intervals.

E. That each tax levying body in the State of Illinois shall, not less than 30 days before the final date for the adoption of its levy ordinance or resolution, publish in at least one newspaper in the County its proposed items of expenditure.

**Urge Uniform Assessments**

F. That a 1% maximum general property tax on full fair cash value be established in conjunction with provision for the compulsory filing of personal property schedules, to the end that all forms of wealth may be assessed on a uniform basis as provided by our constitution.

G. That the present State Gasoline Tax be substantially reduced on gasoline which contains 10% of alcohol produced from grain.

H. For reform in Court procedure to simplify and reduce the cost of fees.

I. That laws be revised to correct the abuses in the pension system.

J. That assistant supervisors be limited to 1 for every 25,000 of population.

K. Be it further resolved that the law be so amended that the petition for the abolition of Township Organization be required to contain not more than 10% of the legal voters of the county directing the County Board to place said referendum on the ballot.

L. That this Association endorses Kenders' Plans for Federal Cuts.

### BONNER AGAIN HEADS MILLBURN INS. CO.

All Officials and Agents to  
Serve Another  
Term

Leahie Bonner, president of Millburn Mutual Fire Insurance Company for the past five years, was chosen to head the company for the sixth consecutive year at the annual meeting held Saturday, Jan. 7, at Millburn.

J. S. Denman, entering his eighteenth year as treasurer of the company, and Carl D. Hughes, treasurer for the fourth year, with the three directors, were also re-elected. Frank Kennedy, northern director, and John G. Witz, southern director, have served for a number of years while this will be the second year W. J. Sawyer has served as central director.

**Agent Re-appointed**

No changes were made in the personnel of the agents of the company who were re-appointed as follows: Arthur Long, Warren, Newport, Benton, Waukegan, Avon and Grant; C. F. Richards, Antioch; G. M. Traul, Libertyville, Shields, Fremont, and Ela; Arthur Powers, Wauconda and Cuba; W. L. Woodin, Vernon and Deerfield.

**Financial Condition Satisfactory**

The financial condition of the company was pronounced sound and satisfactory by J. S. Denman, treasurer, and other officials, following the reading of the annual report during the meeting.

A clause was inserted in the policy exempting the company from liability in the case of damage from the current of any electrical apparatus unless fire causes. Other minor changes were made in the policy.

The Millburn Mutual Insurance Company was established seventy-eight years ago. It is one of the oldest companies in Illinois and is rated as one of the strongest mutual companies in the middle west with 1500 policy holders carrying more than \$6,000,000.

**Officers Installed**

Grace Balstow, of Waukegan, basal junior president of the state assembly of Illinois, will conduct a school of instruction at the Rebekahs' meeting to be held tomorrow (Friday) evening at the Oddfellow's Hall. This will be the first meeting following the installation of officers, Jan. 6, by William Runyard, installing officer, and Mrs. Cora Radtke, installing warden.

**Officers Installed**

Mrs. Eva Barnette, noble grand; Miss Clara Armstrong, vice grand; Reba Slyster, recording secretary; Mrs. Edou Drom, financial secretary; Carrie Horan, treasurer; Eva Barnstable, warden; Irma Powles, conductor; Cora Radtke, chaplain; Deborah Van Patten, muse; Mary Runyard, right supporter; noble grand; Sophia Hannings, left supporter; noble grand; Nilda Anderson, right supporter; vice grand; Mary Drom, left supporter; vice grand; Mary Wilton, inside guard; and William Runyard, outside guard.

Alas Myrtle Wilton, outgoing noble grand, was presented at the installation ceremony with a past noble grand's pin.

**Religious Educators**

to Meet at Waukegan  
Lake County Council of Religious Education will hold a conference for Sunday school teachers at First Methodist Episcopal Church, Grand and Utica Streets, Waukegan, Saturday, Jan. 28, under the direction of Mrs. Russell H. Edwards of Waukegan.

An all day program is planned for the meeting which church workers and pastors from all Lake County are expected to attend. Topics relating to beginners, primary and junior departments will be discussed and exhibits inspected. The meeting will open at 10 o'clock in the morning and, with 12 to 1:30 o'clock reserved for lunch, will continue until 4 o'clock.

**Scouts Observe Franklin's Birthday: Plan Trip**

The birthday of Benjamin Franklin, patron saint of the Girl Scouts, because he exemplified the spirit of thrifty law, was the subject of a contest at the Scout meeting held Monday afternoon at the Grade School.

Mrs. M. K. Phillips, patrol leader, asked each girl separately whose birthday was celebrated on Jan. 17, and three scouts from White Bear, Lion and Nightingale patrols knew the answer.

Plans for a Saturday all-day trip to the Field Museum were made during the meeting. Lorraline Larson visited the Museum last Saturday.

**Dog Tax Will Be Due February 1**

The village tax on dogs, will be due February 1, according to the village clerk. Collection will be made by John Brogan, village police officer, after that date. A total of 125 dog licenses were sold last year in Antioch. The tax is one dollar on male dogs and three dollars on female dogs.

**Herman Rosings Return From Florida Trip**

Mr. and Mrs. Herman Rosing returned from Eau Gallie, Fla., Tuesday night, bringing with them two three-months old alligators, one for Mr. Al Shepards and one for Mr. Rosing's father, William Rosing.

Mr. and Mrs. Rosing visited Mrs. Rosing's parents, the William Hollings, the past month.

**Suit Filed Against Pregenzers This Week**

A suit for ten thousand dollars damages was filed in Lake County Circuit Court this week against Ray and Louis Pregenzers, operators of resort hotels and dredging contractors.

### Moose Lodge Will Give Dance Wednesday

Moose Lodge, No. 1245, will give a dance next Wednesday night at St. Peter's Hall with the Century Sorenders orchestra playing. In connection with the dance, a number of musical novelties will be played.

The Sorenders, of the Lagoon and Golden Gate, have played at a number of dances in this section, recently playing for a dance given at Libertyville.

**ODDFELLOWS TAKE OVER WOODMAN HALL**

**Will Sub-let to Organizations: Installs New Officers**

Oddfellows began the year's activities with the installation of officers at last Thursday's meeting and the leasing of the hall above the Chase Webb Store, formerly known as the Woodman Hall. The Oddfellows will subrent the room to Fortress Mothers Daughters of the G. A. R., the Hobekabs, and the Royal Neighbors, which have been holding their meetings there. The Woodman organization has become inactive here the past few years.

At the State Bank, J. E. Brook was re-elected president with Chase Webb and F. B. Kennedy, vice presidents and W. F. Ziegler, cashier.

The nine re-elected as directors are J. E. Brook, Chase Webb, H. H. Grimm, F. B. Kennedy, Charles Silley, J. J. Morley, Joseph Labdon, Roy Pregenzer, and W. F. Ziegler.

**FOX LAKE COUPLE ARE HELD FOR GRAND JURY**

**Both Charged with Murder after Evidence at Inquest**

Roy Cunningham, Plaistake Bay report operator, and his wife, Maria, were recommended to be held for Lake County grand jury in the murder of Henry Johnson, Fox Lake.

Many in this section will remember the fire on the La Plant place standing on the farm fifty-eight years ago when Sol La Plant came here as a young man with his father, Felix La Plant.

The granary is now used as a storage place and contains many valuable family keepsakes including two trunks filled with possessions which were brought by the La Plants from their home in Massachusetts.

Many in this section will remember the fire on the La Plant place twenty-seven years ago when the barn burned to the ground. At that time Antioch had no fire trucks and the bucket brigade was not successful in its attempts to extinguish the fire though it was prevented from spreading. The fire volunteers took both trucks to Monday's fire.

The appointive officers installed were: L. M. Hughes, warden; Russel Barnstable, conductor; J. Cribbs, chaplain; C. E. Honning, right acme supporter; Matt Sorenson, left acme supporter; Carl Ball, right supporter to noble grand; Jake Drom, left supporter to noble grand; Harry Osmond, inside guard; Herman Radtke, outside guard; William Runyard, right supporter vice grand; and Herman Cubbins, left supporter vice grand.

Witnesses called by State's Attorney Charles Mason were Dr. F. A. Rollins and Deputies John Sweeny and D. A. Hutton. The torn dress of Mrs. Cunningham was exhibited as evidence that she had taken part in the struggle between her husband and Johnson.

Attorney George Field of Waukegan represented the Cunninghams at the inquest. Following the verdict, they were returned to the Lake County jail.

**Inglewood Man Will Give Talk on Alaska at Church**

A talk on Alaska illustrated with stereopticon slides will be made at the Methodist Church of Antioch Sunday evening by W. J. Bledsoe of Burlington and Chicago.

Mr. Bledsoe has traveled extensively in Alaska and resided there most of his life. The pictures which will be shown were photographed by Mr. Bledsoe during his residence in the country. The lecture will begin at 8 o'clock and the public is invited to attend.

**Kutill Returns from Hospital This Week**

C. L. Kutill, who has been in a

Hospital for the past several weeks, was sufficiently improved in health this week to return to his home. Mr. Kutill was visited at the hospital by S. G. Knox, Philip T. Rohr and Nelson Drom last Friday evening.

**Auxiliary to Give Party**

A card party will be sponsored by

the Legion Auxiliary next Friday evening at Moose Hall.

**Bishop Stewart To Be Present at Confirmation**

Bishop George Craig Stewart of

Chicago will conduct confirmation services this evening at 8 o'clock at St. Ignatius' Episcopal church.

Seven will be confirmed at the evening's meeting which is being held at this time because of Bishop Stewar

## MAKE 1933 A SAFE YEAR

A publication of the National Safety Council carries an excellent New Year wish: "Three hundred and sixty-five safe and happy days to you for 1933."

If that wish could bear fruit, it would be a magnificent thing for the country. It would save thousands of lives which would otherwise be needlessly destroyed—it would keep for useful purposes the billion or so dollars that is wasted annually through accidents—it would make for happier and better working conditions, and more efficient industries. Nothing is so destructive to the morale of the worker as a series of serious accidents in his plant.

The safety movement has been making good progress for a long time. There has been a general decrease in the number and severity of accidents—aside from those caused by automobiles.

The careless, reckless and irresponsible driver kills about 33,000 people a year nowadays.

We can make 1933 the greatest safety year in our time. We can do it by giving the little effort, the little thought, the little care, that is needed to make our homes, our places of business and the public highways safer. We can do it by giving consideration to the rights of the other fellow. As individuals, we have the power to save thousands of irreplaceable lives this year—Let's do it!

## CONCERNING OUR TAX RATE

A reduction of 33 cents on \$100 taxable valuation revealed in the tax rate of Antioch School District 34 or the village of Antioch in the recent figures compiled by the clerk of Lake County, is satisfying in its indication that taxes are headed downward, not upward, for this district. This reduction is the largest made by any district in Lake County except Gurnee No. 56 and North Chicago-Shields No. 64, both of which had decreases of 39 cents in their total levies.

The question which naturally arises out of this information is how the reduction was effected and in what units of our tax structure.

To thoroughly understand the situation, the lowered valuation must be taken into consideration. Property assessed at \$1000 in the 1931 valuation is assessed at \$810 for 1932. In other words, valuations dropped 15 per cent, and consequently, a tax levy which remains the same for 1932 as 1931 can bring in only 85 per cent of the revenue obtained last year. This statement is made with the theoretical assumption, of course, that delinquencies will be the same as last year.

More than two thirds of the \$6.10 per \$100 levied in this district will go into the coffers of the grade school, the township high school, and the village. The remainder is divided among the state, county, township, township road and bridge, and gravel units.

Out of the eight units which Antioch taxpayers' dollars support, only two units showed an increase in

the tax levy this year as compared with that of last year. These two were the state and township. The same levy is made for the village of Antioch for 1932 as in 1931.

The state's increase over last year's rate was 28 per cent, the rate jumping from 39 cents per \$100 for 1931 to a 1932 rate of 50 cents per hundred. An increase in the township rate of 19 per cent was made. This increase is accounted for by the necessity for more poor relief funds.

The greater part of the decrease in the tax rate is shown in the levies made for roads. A 43 per cent decrease was made in the 1932 levy for the gravel unit. The township road and bridge rate was decreased 20 per cent.

As further evidence that the largest saving for the taxpayer will be made on roads, the greater portion of the decrease in the county rate is made in the highway tax. The county rate, lowered 19 per cent, has a levy of 39 cents per \$100 as compared with 48 cents in 1931. The division of this sum is as follows:

|                | 1931 | 1932 |
|----------------|------|------|
| General Fund   | \$25 | \$23 |
| Detention Fund | .01  | .00  |
| Highway Tax    | .08  | .03  |
| County Bonds   | .14  | .09  |

More than half the county's reduced rate was effected by a reduction in the levy for revenue to retire county bonds.

The township high school levy shows a reduction in levy of 1 per cent. The 1931 tax rate for the high school was \$1.32 per \$100 and for the grade school \$2.00 per \$100. For 1932 the rate is \$1.18 for the high school and \$1.98 for the grade school.

An actual reduction of 5 per cent is found in the tax levy for District 34 as compared with the tax levy of 1931. However, although the levy amounts to only 5 per cent less, there is an actual reduction of more than 19 per cent in the total estimated expenditures as the lowered valuations leaves 15 per cent less property to spread the tax over.

Those who have an active interest in how their tax dollar is spent will read these figures with interest. Those who have no interest in studying the functions of their tax money have no reason to complain of over-taxation. A fire tended and watched carefully is one of civilization's most valuable aids, but out of control it becomes a dangerous enemy. So it is with taxes.

## INVESTIGATE FIRST

Bulletins were mailed out this month to newspaper publishers throughout Illinois, warning them to await investigation before signing contracts with a Chicago organization which through its name earns the false impression that it is connected, or associated with, the Century of Progress movement.

The World's fair, designed for profit, will obviously win the attention of those who are willing to reap their share through questionable or dishonest methods. Though this group will be in the minority, their very existence will shadow the movement for those who come in contact with their misrepresentations.

MERCHANTS of this section owe it to themselves and to the visitors the fair will bring them this summer, to withhold their support and co-operation from all agencies professing to be furthering the interests of the Century of Progress movement until those agencies have supplied evidence of the integrity of their motives, their sincerity and responsibility.

Elects L. G. Brickman,  
President

The P. T. A. met in regular session at the school house Monday evening, and the president, Mrs. Perry, presided. After the business meeting, Mrs. Pinch, chairman of the program committee, introduced Mr. Underbrink, principal of the Libertyville High School, who gave a splendid talk on Education, and what we may expect along educational lines during the next decade. He believes that the High Schools will be required to provide training for the boys and girls after the usual four years, to bridge a gap in the time before they will be able to find work to do in times like these. The next meeting of the P. T. A. will be at the school-house on Monday afternoon, Jan. 30. Two piano selections were played by Miss Masterson at the beginning of the program, which added much to the meeting.

The German-American Society held

its regular meeting at the home of Mrs. Dicks on Wednesday evening of last week and elected officers for the new year as follows: president, L. G. Brickman; vice president, Elmer Wolf; secretary, Mrs. Vos; treasurer, Mr. Morris. An orchestra from Waukegan furnished music for the evening, and a very pleasant social time was enjoyed.

Mrs. William Duncan entertained her Bridge Club at her home last Thursday afternoon. The first prize was awarded to Mrs. Joe Hucker, second to Mrs. H. Perry and consolation prize to Mrs. Leo Barnstable. The hostess served a luncheon.

Frank Richards and Mrs. James Atwell who have been confined to their homes by flu for the past three weeks, are improving and able to be about. The small son of Mr. and Mrs. Frye is also much better.

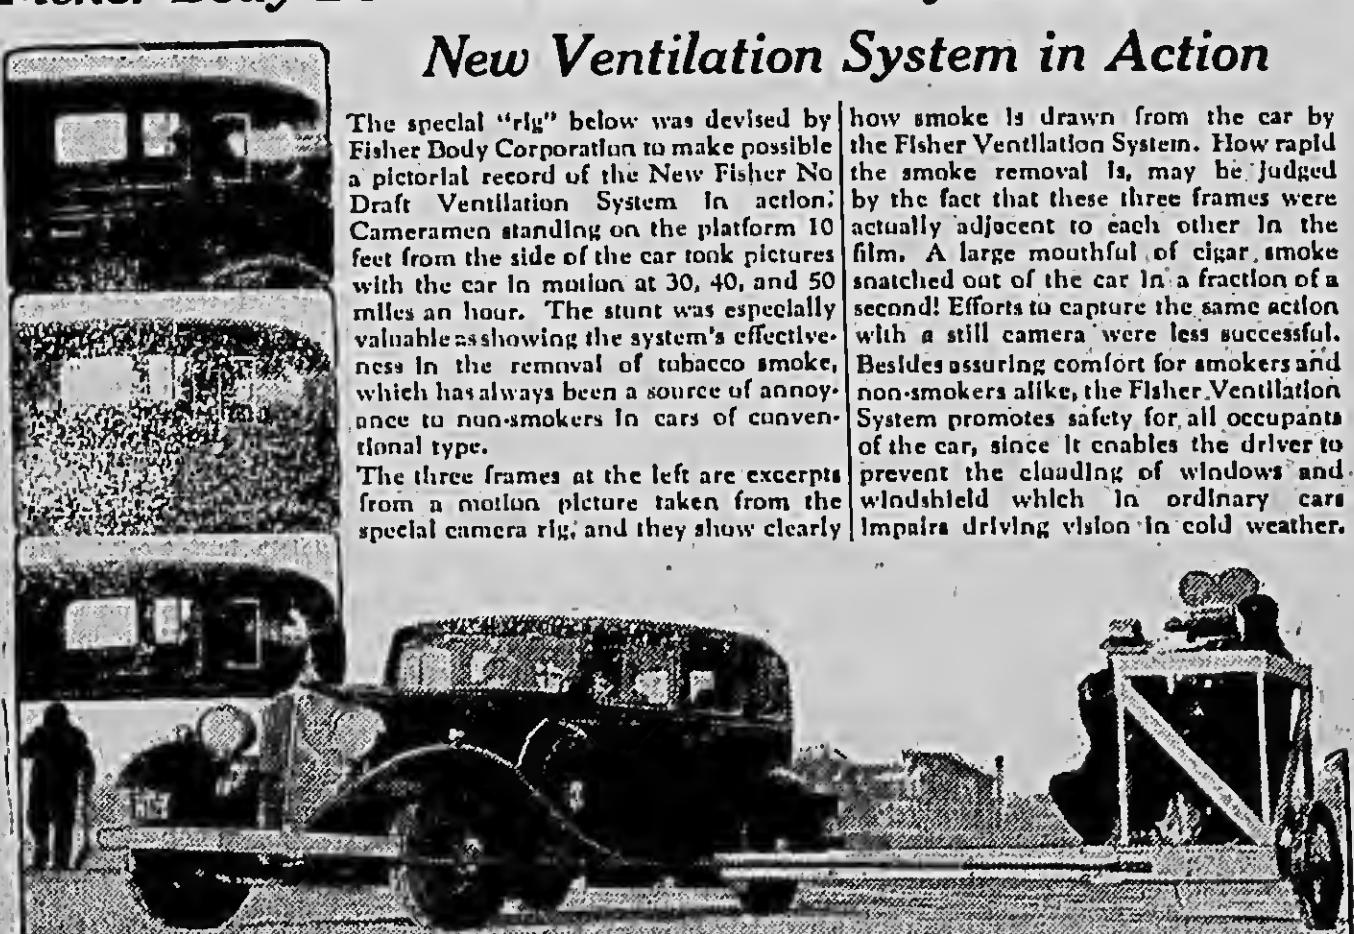

Mr. and Mrs. John Nader, Mr. and Mrs. Frank Nader, Mr. and Mrs. Fred Hamlin and Mrs. Anna Beleak were dinner guests of Mr. and Mrs. Clarence Nader at Grayslake on Sunday.

Mrs. Arthur Nauta of Waukegan, spent a couple of days the first of the week with her daughter, Mrs. Lester Hamlin.

Mr. and Mrs. Bayles and daughter, also Mrs. Benham all of Rockford, were guests of Rev. and Mrs. C. J.

The special "rig" below was devised by Fisher Body Corporation to make possible a pictorial record of the New Fisher No Draft Ventilation System. In action: Cameramen standing on the platform 10 feet from the side of the car took pictures with the car in motion at 30, 40, and 50 miles an hour. The stunt was especially valuable in showing the system's effectiveness in the removal of tobacco smoke, which has always been a source of annoyance to non-smokers in cars of conventional type.

At a special meeting of the church and society on Sunday, a call was extended to the Rev. Samuel Holden of Chicago to become pastor of Millburn Church.

Mrs. L. J. Sheen, Mrs. Clarence Bonner, Miss Jean Bonner, Mrs. W. M. Bonner, Mrs. Robert Bonner, and Mrs. Gordon Bonner attended a meeting of the Mount Rest Cemetery Association at the home of Mrs. R. C. Murrie at Russell on Wednesday. Potluck dinner was enjoyed at noon by about 40 members and guests.

George Edwards, who has been ill for several weeks with influenza, is slowly improving.

Mrs. H. E. Jamison, Doris Jamison and Mrs. E. A. Martin motored to Milwaukee Tuesday evening.

Misses Held and Martha Hughes of Waukegan were callers at the Bonner home on Sunday afternoon.

The Book Club met at the home of Doris Jamison Monday evening.

Richard Martin of Lake Forest College spent the weekend with his parents.

Mr. and Mrs. Joseph Anderson of Lake Forest and their daughter, Mrs. Jeffrey Corquoville, of Liberty-

ents, Mr. and Mrs. B. J. Galgur, for a rest of a few weeks, following an operation for appendicitis.

J. A. Pederson is spending the week at his place of business in Chicago.

Will Fish has recently made a deal with a Chicago business man for the sale of his farm south of town possession to be given by March 1. Mr. and Mrs. Fish have not yet decided where they will locate.

Mrs. Swanson and daughter Evelyn and Elsie, enjoyed watching the ski jump at Cary on Sunday afternoon.

Mrs. Gladie and Kathleen were Chicago visitors over Sunday.

The Woman's Club sponsored a card

party at the Thompson home at Alendale Farm on Tuesday afternoon.

Mr. and Mrs. Roy Edwards and family, Mr. and Mrs. Robert Erwin of Waukegan and Mr. and Mrs. Warren Edwards and family were callers at the George Edwards home Sunday afternoon.

Misses Annie McCredie and May Dodge were guests for dinner at the C. E. Bonner home on Sunday.

## The Brave Can Forgive

The brave only know how to forgive; it is the most refined and generous pitch of virtue human nature can arrive at. Cowards have done good and kind actions; cowards have even fought, may, sometimes even conquered; but a coward never forgave; it is not in his nature.—Sterne.

**LIVE STOCK****HOG CHOLERA IS CAUSE OF LOSSES**

Measures to Control Various Diseases Are Needed.

(By J. W. LUMH, Extension Veterinarian, Kansas State Agricultural College.)

Knowledge is power in the control of swine diseases.

It has been estimated that only 60 per cent of the pigs farrow live to marketable age. It is commonly assumed that 90 per cent of all losses from diseases in swine may be charged to hog cholera.

With continuous use, the old hog lots and houses may become centers for external parasites such as lice and mange mites and more death dealing microscropic organisms, those that cause pig diseases such as acarus, ascaris, infectious nasal catarrh, bronchitis, infectious oedema, swine pest, undecariable sequelae to wound infections, eczema, necrobacillosis of the skin, nose, stomach, and intestines, and various types of pneumonia. Besides all these troubles, there are the ever present large round worm eggs.

Preventive measures to control pig diseases should begin before the litter is farrowed.

Thoroughly clean farrowing house, removing all litter and scrubbing floor and walls with boiling water and lye.

Wash sows with soap and water before placing them in cleaned houses.

Within two weeks after farrowing, remove sow and pigs directly to a field that has not been used for hogs for at least one year.

Remove sow at weaning time.

Allow no other hogs in the pens.

Keep pigs on the pasture until four months old or until they are past the period of greatest danger.

Plow hog yards and lots each year and plant crops to help destroy round worm eggs.

Liver Fluke of Sheep

**Cause of Much Damage**

(Prepared by the United States Department of Agriculture)

A poster dealing with the common sheep liver fluke has been issued by the Bureau of Animal Industry, United States Department of Agriculture, to enlist the aid of live stock owners in checking the spread of the parasite. The poster describes and illustrates the life cycle of the fluke and outlines simple methods of control. Since young lambs spend a part of their life history in the small, it is especially important to drum, fill, or fence off wet areas in which smaller breed lambs may also be destroyed by the application of copper sulphate, as a spray or powder, to infested pastures.

Besides killing many sheep and cattle annually, flukes cause an annual loss of fully \$300,000 because of damage to livers as a food commodity. These parasites, sometimes incorrectly called leeches, are spreading from the West coast, Rocky Mountain states, and South toward the East and North.

Copies of the poster may be obtained on request to the Bureau of Animal Industry, United States Department of Agriculture, Washington.

Manicuring Cattle to Save Much Discomfort

Cattle kept in the stable or in yards often suffer discomfort because of excessive growth of the claws. This is due to lack of wear, writes Dr. L. Van Es, in Kansas Farmer. Excessively long claws tend to a faulty position of the limbs, strain of tendons and pain during motion. This discomfort and pain may reduce the milk yield.

Heavy bred bulls are particularly apt to suffer, and their usefulness may become impaired. They should have their claws properly trimmed about twice a year. With appropriate tools the excessive horn may be removed and the whole smoothed with a rasp.

It may be necessary to throw the animal but this should not keep the job from being done.

Oats Replace Corn for

**Hogs in Purdue Ration**

Swine feeding results at Purdue University, LaFayette, Ind., show that oats in rations for swine should be limited to one-half the weight of the ration. More than this weight is not used economically and gains are slower.

The corn replacement value of the oats varies according to the amount of oats used. When one-fourth of the ration was oats, one bushel of oats replaced two-thirds of a bushel of corn. Where oats made up one-half the ration, a bushel of oats was equal to only one-half bushel of corn.

Get Lambs Eating

Many sheepers clip the wool from around the ewe's udder, which, of course, lessens the wool bull's danger, but with wool always on fences and troughs one has to get the lambs to the eating habit as soon as possible.

Lambs a few weeks old enjoy nibbling at grain, oats, bran and cracked corn with a sprinkling of linseed oil meal, which makes a fine lamb feed, and it is surprising how soon the lambs will become accustomed to eating what

**SIXTY DISASTERS IN 1932 ADD TO NATION'S DISTRESS**

Red Cross Spends \$2,760,000 To Help Victims of Catastrophes.

In a year of great misfortune caused by economic depression, in which the American Red Cross assumed heavy burdens of relief for the unemployed, the organization also responded to emergency needs in 60 disasters in the United States and its insular possessions.

During the twelve months ending June 30, 1932, the Red Cross gave aid to 75,000 families totalling 338,000 individuals, with expenditures of \$2,760,738. These people were in distress because of drought, flood, forest fire, tornado, snowstorm, mine explosion, or other similar great disaster.

Prolonged drought caused the Red Cross to go with help to 58,000 families in the northwest. Here in 144 counties in North and South Dakota, Montana, Nebraska, Washington and Iowa the Red Cross spent \$1,080,000 from its own treasury to feed and protect people through the winter and spring.

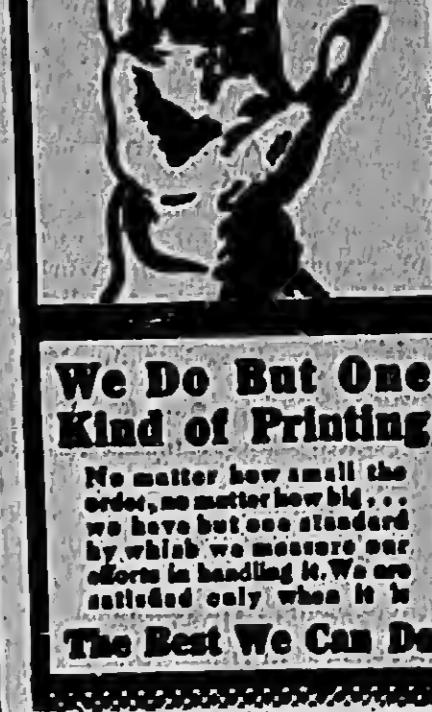

Other grave disasters were floods in southeastern states, where the organization spent \$102,000 from its treasury and \$66,000 local contributions to help 13,000 persons.

More than 50,000 people were homeless from floods in tributaries of the Mississippi River and again the Red Cross faced a long relief task, aiding these people. The national organization gave \$108,000 and local contributions were \$10,000.

The Red Cross always maintains a state of readiness to meet these sudden emergencies, and funds and other essentials to this work are supplied, in part, by the annual roll call, held each year from Armistice Day to Thanksgiving Day. Every citizen can support this worthy activity through joining as a member in the local Red Cross chapter.

**Two New Style Leaders****THE 1933 OLDSMOBILES**

PRICES REDUCED '130 TO '145

A Roomier more Powerful Six \$745 \* A Larger more Luxurious Eight \$845

NEW! . . . Two motor cars entirely different from anything you ever saw—symmetrically new in design from end to end. And with style leadership, these 1933 Oldsmobiles also bring you every other desirable modern quality—as the lowest prices in ten years.

The new Six is a roomier, more comfortable car . . . the Eight is larger and finer in every respect. Both are extremely brilliant performers. And progressive engineering has carried still further the dependability for which Oldsmobile is famous.

The Six engine is larger and develops 80 h.p.—the Eight is increased to 90 h.p. As a result, the Six will do from 75 to 80, the Eight from 80 to 85—actual stop-watch miles per hour!

Both the engines are cushioned on a scientific new three-point rubber mounting that overcomes all sen-

sation of effort or vibration from the source of power.

In these 1933 cars Oldsmobile has employed a special double-drop X-type frame, which greatly strengthens the chassis and provides unusual driving stability.

Outwardly and inwardly, Oldsmobile's new Fisher bodies offer many important refinements. The revolutionary new Fisher No Draft Ventilation, Individualized, is built into all closed models.

Don't compromise this year! Demand style, performance, and durability . . . at prices which represent top value. The new Oldsmobile Six and Eight are outstanding General Motors values. They offer balanced excellence in everything essential to motoring pleasure, comfort and satisfaction.

The 1933 Oldsmobile Sixes range in price from \$745—the Eights from \$845—f.o.b. Lansing. Bumpers and spare tires are extra. Convenient G. M. A. C. time payment plan.

"Truth" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 22.

The Golden Text was, "I will praise thee, O Lord, among the people; I will sing unto thee among the nations. For thy mercy is great unto the heavens, and the truth unto the clouds" (Psalm 111:10).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "I have no greater joy than to hear that my children walk in truth" (1 John 1:4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Honesty is spiritual power. Dishonesty is human weakness, which forfeits divine help" (p. 453).

## OBITUARY

### IRENE HELEN SAVAGE SMITH

Irene Savage Smith, only child of Mr. and Mrs. Austin Savage, was born August 9, 1899, and passed away from the home of her parents, the place of her birth on January 4, 1932. It was in this community that she grew through childhood to young womanhood, and where she received her education. On November 30, 1923, she was united in marriage to Mr. Joseph Smith. To their union two children were born, Albert and Milton. These left to mourn her passing on are her husband and two sons, her father, and mother, Mr. and Mrs. Austin Savage, one grandmother, Mrs. Mann, other relatives, and many many friends. Mrs. Smith had a wide circle of friends who will greatly miss her. The illness which caused her death was less than two years of duration, during which time she suffered much and bore it all in a most beautifully patient manner. To her friends and loved ones she always radiated an atmosphere of optimism, hopefulness, and good cheer. All who knew that hands of love could do, did in vain. The dreadful malady caused the setting of her eyelid star, years before the allotted span of life.

The MariAnne Shop of Antioch has just received a new collection of costume jewelry. For a bride price one of these new hand carved bracelets or a mosaic pin would be just the thing. If you are looking for a practical prize, a pair of cliffons base at 69c.

H. R. Jaeger of Peoria is a guest of his daughter, Mrs. M. M. Miller, this week.

G. A. Whitmore spent the early part of this week at Lansing, Mich., where he visited the Oldsmobile factory. He returned Wednesday.

Mr. and Mrs. F. R. King spent Monday and Tuesday of this week in La Crosse, Wis.

Mr. and Mrs. David Pullen visited the August Holdorf home last week at Wilmot.

Mrs. Juez Ames entertained Mr. and Mrs. Frederick Baerman of Waukegan Sunday.

Mr. and Mrs. Andrew Dalgaard recently called on Mr. and Mrs. James Atwell at Lake Villa. Mrs. Atwell, who has been ill, is improved in health according to Mrs. Dalgaard.

Mr. and Mrs. Axel Thompson and daughter, Gilda, of Kenosha, spent Sunday in Antioch visiting with Mrs. Sine Lauzon and Mr. and Mrs. Walter Hill.

Mr. and Mrs. Ray Borrigan of Waukegan were Sunday guests of Mr. and Mrs. Walter Hill.

William Gruby is spending several weeks in Millbrook, Fla.

Mr. and Mrs. B. R. Burke entertained Mr. and Mrs. H. H. Gaston at dinner and bridge Sunday evening.

Al Tiffany spent Saturday in Champaign, Ill.

Mr. and Mrs. Axel Thompson and daughter, Gilda, of Kenosha, spent Sunday in Antioch.

## Interest In Township Election Shown Early

### Petition for Hattendorf's Candidacy as Justice of Peace Circulated

With a petition to place William Hattendorf as a candidate for the office of justice of peace in the township election being circulated this week, indications are that interest in the spring election is already being awakened. Signatures of 5 per cent of the voters in the last election will be required before Mr. Hattendorf files his candidacy.

Sam Tarbell and W. H. Regan, present justices, are expected to run for re-election, although Mr. Regan has made no definite statement regarding his intentions. Mr. Tarbell has held the office for the past twelve years and has stated his intention to run again.

Other township offices which will be vacant are assessor, two constable offices, and the clerk's office. Ernest Simons, assessor, and Jim Horan and Carl Andersen, constables, have not made a public announcement as to whether they will seek re-election but it is understood that they will. C. F. Richards, township clerk, this morning said that he intends to file his candidacy.

The period for filing for township offices will open Feb. 3.

Mrs. and Mrs. Finus Peters visited Mrs. R. G. Grantham in Libertyville Sunday.

### Millburn Wins Over Waukegan Cardinals

An overtime game played Monday night at Antioch Township Gym ended in a victory for the Millburn team over the Waukegan Cardinals. A final score of 20-10 won the game for the Millburn players. Millburn was defeated by the Waukegan team in a game earlier in the season.

The line-ups for the game were:

### Gerald Reed Will Talk On Technocracy to Demos

Gerald Reed, instructor at Antioch Township High School, will speak on Technocracy at the meeting of the Democrats Social Club which will be held Monday night at 7:30 o'clock. Outsiders are invited to attend.

### Mrs. Hoadley Addresses Woman's Club Meeting

#### Stresses Importance of Educating Women on National Issues

Education of club women on the various national issues was stressed by Mrs. Mary Eta Hoadley in her address on "Americanism" before the Woman's Club meeting Monday afternoon at the W. R. Williams home. Mrs. Hoadley is state secretary of the Illinois Federation of Woman's Clubs and has been state chairman of the Americanism and Citizenship committee.

Mrs. Hoadley discussed the nine point legislation of the governor's committee on child welfare. The committee's report, she explained included changes in the law in regard to probation of non-criminal juveniles; better protection of illegitimate children; stricter regulation of maternity hospitals and the compulsory use of prophylactics to prevent blindness at birth.

#### Discusses Women Abroad

Four members of the club volunteered to write the state senators and three representatives of this district asking for their support of the legislation.

During her address Mrs. Hoadley discussed her observations of women in eight foreign countries she visited this past summer. "Foreign women look up to American women for their leadership in women's movements. They asked me to carry back their plea that we do not lower our standards or ideals for what constitutes a woman's place in the life of today."

#### District Meeting Announced

An announcement was made at the meeting of the all-day tenth district meeting of Women's Clubs to be held at Edgewater Beach Hotel, Chicago, next Thursday. A morning address by the nation's federal president, Mrs. Grace Morrison Poole, will be followed by a luncheon in the Marine Dining Room, according to Mrs. Archie Maplethorpe, president of Antioch's Woman's Club. Mrs. Maplethorpe asked that all members of Antioch Club who plan to attend notify her so that reservations can be made.

#### Musical Program Will Be Presented Tomorrow Night

Prizes have been offered in the ticket sale to the Grade School band and chorus concert to be presented tomorrow (Friday) night at the grade school for the five children selling the most adult tickets. Cash awards up to one dollar will be made.

The program is to be presented at the Antioch Township High School with children from all grades taking part. Twenty-four selections are included on the program.

Solos will be played on the program by Betty Lou Williams, Bernard Osmund, Charles Hawkins and James Maplethorpe. Monte Miller, singing the chorus to a selection by the jazz band, will be the only vocal soloist on the program.

Proceeds from the concert will be used to pay for a bass horn which was bought for the band this year and has not been paid for. The program will open at 8 o'clock.

The lights left a one-sided game to Barrington's seconds 20-6. There was a total lack of attack, defending honors going to Schaefer and Simpson.

Fan hopes are high for the game with Libertyville, Feb. 3, as there is plenty of time for smoothing the attack.

### Exams Will Close Semester Next Week

Examinations closing the first semester of the school term at Antioch Township High School will begin Tuesday morning at 8:30 o'clock and continue until Wednesday afternoon. The new semester will open Thursday morning.

With few exceptions, the courses offered during the second semester will be continuations of the first semester courses. Solid geometry will be offered in place of advanced algebra and economics will be replaced by civics, sociology or psychology course. Trigonometry will be offered if a sufficient number desire to enroll.

### Two Victories Won By Antioch Team

Two victories over strong opponents have been scored this week by the Johnson Insurance basketball players who defeated the Dropicks of Waukegan Sunday at Waukegan and Tuesday at the High School gymnasium took a four point lead over the Wilmot Pirates.

Tuesday night's game resulted in a 22-18 score after the lead had changed hands constantly throughout the game. In Sunday's game, played at the Mother of God gymnasium at Waukegan, the score ended 33-23 with the Dropicks behind.

Line-ups for this game were:

|                | B | F | P |
|----------------|---|---|---|
| Antioch        | 5 | 0 | 0 |
| Riley          | 5 | 0 | 0 |
| Harris         | 4 | 0 | 1 |
| Maxine         | 5 | 0 | 0 |
| Murie          | 1 | 0 | 1 |
| McNeil         | 1 | 1 | 1 |
| Dropicks       | 0 | 0 | 0 |
| Dropick, Jerry | 4 | 0 | 1 |
| Bensou         | 4 | 2 | 2 |
| Midlo          | 2 | 1 | 1 |
| M. Dropick     | 0 | 0 | 1 |
| J. Dropick     | 0 | 0 | 0 |

A game will be played by the Antioch team Tuesday evening. Two games in the Chicago City evening league of which the team is a member, have been won by forfeit.

### Guild Entertainment Is Judged Success

#### Musical Production Is Well Staged; Scenes Were Colorful

After a week of intensive rehearsal, the Guild musical presentation, "The World's All Right," was well staged last Thursday and Friday nights at the high school auditorium. Judging from the comments of those who attended, the show as an entirety was a successful entertainment.

The eight scenes in which more than one hundred thirty Antioch people took part, were presented in brilliant costumes with music and comedy drama. Accompaniment for the choruses, through the show was played by Mrs. William Anderson. The tap dancing of Miss Mildred Van Patten was one of the outstanding acts of the show and added a professional touch.

The part of Betty Co-ed, lost vacant at the last moment by the illness of Miss Wilma Musch, was filled by Miss Bernice Lindberg who stepped in and filled it on short notice without having time for a rehearsal.

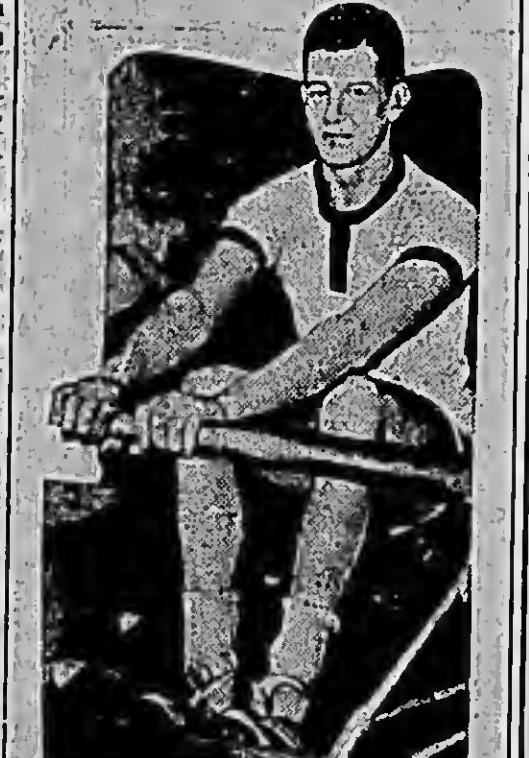

Buster Keulman's impersonation of Nellie Bly was a comedy highlight of the show which ranked with Homer La Plant's Minnie Pie act. The Tiny Tot Parade, featuring Mrs. Charles Lux was the most picturesque scene of the show with Mrs. Lux in a pale blue gown and the children grouped about her.

Anthems sung by the vested choir took the musical honor of the show and won praise from the majority of those who heard them. Mrs. H. B. Oaston, Marion Spangaard, Mrs. Lux, Miss Huffendich, Miss Rita Hawkins, Miss Eleanor Meyers, Miss Cornelia Roberts, Mrs. Dordenne, Miss Fannie Westlake, Mrs. Frank Spangaard, Miss Louise Simons, Miss Wilma Musch, Mr. Yates, Gordon Martin, Guy Ellis, Philip T. Bohl, W. C. Petty, S. E. Pollock and Mrs. Elmer Brook made up the vested choir.

The finale was also an outstanding scene in the show. The variety of scenes and types of entertainment included in the production made it one of the most elaborate presentations staged here.

#### Origin of Name Lost

There are no exact data as to the origin of the name of Liverpool, great English port. In 1101, John, afterward king and acting as regent, confirmed Henry Fitzwarine in the title to the town of Liverpool. Tradition gives the name as originating from the Norse Hlitharpool (the pool of the slopes), or, in provincial English, lever (the yellow flag or rush) pool (an open pool at the mouth of the Mersey river, a factor in making Liverpool the famous port it afterward became).

**Child's Work Table**  
One mother has taken a discarded card table and covered it with plain black oil cloth. She keeps this in the play room and what fun the children have when they want to play games, paint, cut out paper dolls, etc. The oil cloth will wipe off easily and if scratched, it is not serious, as it may be replaced very cheaply.

#### Romances Everywhere

One constantly hears that "the romance of discovery is dead." But nothing could be farther from the truth. Only the other day a schoolgirl recognized a stone lying under a hedge near Melstone as a fine Stone age ax. ### When Bees Require to Be Winter Fed

#### Matter Worthy of the Most Careful Attention.

Two methods of winter-feeding bees are suggested by Lt. G. Richmond, deputy state entomologist at the Colorado Agricultural college, for use in colonies where the honey crop was short last summer and starvation is showing up. "Winter feeding should not be practiced unless absolutely necessary," Richmond says, "because it disturbs the bees, causes loss among the workers and generally results in unsuccessful wintering. Consider before feeding if the colony is worth it and if the bees would live even if fed."

Where the colony has a queen and the cluster includes four frames, proper feeding of capped honey in frames placed just beside the cluster of bees to replace the empty frames, is the only real satisfactory method, he says. The honey should be partly liquid the more liquid the better, and must be from healthy colonies. If the origin of the honey is not known to be satisfactory it should not be used under any circumstances, he warns.

One or two standard full frames of honey should be enough to carry a normal colony from four to six weeks depending on how early brood rearing starts. If abundant honey in frames is available, six frames may be added and the colony will be insured against further shortage if the honey flow starts in May.

An emergency feed may be made as a foodstuff, candy of sugar, with proportions of two pounds of sugar to one pound of water, not water being used to dissolve the sugar. To each 2 pounds of sugar add one teaspoonful of tartaric acid. Boil until the mixture reaches 230 degrees F. Cool solid by kneading powdered sugar until a very stiff candy is made. Roll the candy to flat slab and place on top of the frames in the hive.

The candy should be very stiff, making it difficult to pinch off and the powdered sugar must be free from starch, as starch is indigestible for bees.

#### Butter Supply Must Be

##### From TB-Free Sources

Cleveland, Ohio, has a city ordinance requiring that butter sold in the city must come from the milk of cows that have passed the tuberculin test. The ordinance became effective January 1, 1932.

Cleveland officials anticipate no serious opposition to the enforcement of the new ordinance. Tentative arrangements have already been made for the proper labeling of butter from tuberculin-tested sources so that it may be readily identified. It is understood that the term "tuberculin-tested source" means an area in which the dairy herds have been tested under federal and state supervision and which is officially designated as a "modified accredited area," that is, an area in which not more than one-half of 1 per cent of the cattle are tuberculous.

Limestone for Stock

Powdered limestone as a substitute for alfalfa hay produced satisfactory results in fattening cattle at the Kansas agricultural experiment station. One-tenth of a pound of finely ground limestone, substituted for two pounds of alfalfa hay, produced slightly larger average daily gains in the Kansas tests. The profits per head were also in favor of the cattle fed ground limestone.

The rations in which the alfalfa hay and powdered limestone were compared included corn, cottonseed meal and silage. The tests indicate that rags may be satisfactorily supplemented with powdered ground limestone which acts as a substitute for alfalfa hay.

#### Metals in Powdered Form

One development of the metallurgical industry is the manufacturer of several metals in pulverized form in which shapes are applied to other metal surfaces by the spraying method. Nickel, chromium, silver, platinum and other metals have been very successfully made use of in this shape, but the greatest demand is for copper. There has been created a demand for 3,000,000 pounds of powdered copper annually.

#### Fish Respond to Colors

Color plays a part in the lives of reptiles and fish. Iguanas prefer yellow foodstuffs and are attracted by yellow flowers, while fish are more readily caught when baits of certain colors are used.

### "Salads Important in Athletes' Diet" - Says Vreeland, Women's Olympic Coach

George Vreeland, Coach of Victorious American Women's Olympic Team

**W**HAT is the story behind the sensational showing made by the American women's Olympic team in the Olympic Games at Los Angeles? What is the secret of training a group of American girls who swept the track and field events and amassed a total number of points greater than the combined total of all the foreign women's teams?

It was not so much a matter of rigid rules, exhaustive practice and Spartan self-denial, as so many think. According to George Vreeland, head coach of the American women's team, it may be ascribed to four fundamentals: 1. Plenty of sleep. 2. A sensible American diet, including two generous helpings of strength-giving salads a day. 3. A

fairly light workout every day. 4. Encouragement of the proper frame of mind.

Vreeland's principles were not strictly enforced, but were followed voluntarily. Long interested in athletics, he paid particular attention to diet. Thus he strongly recommended that his athletes, as well as any other athletes wishing to keep in good condition, should eat plenty of nutritious salads and vegetables twice a day because he believes they supply health-giving, easily digested foods.

"When salads are prepared with smooth, double-whipped mayonnaise or a delicious French dressing," Vreeland says, "they provide a splendid and highly palatable base for the daily diet."

## NEW LIGHT

## everyone is talking about

It's a simple thing but what a difference it makes in your living room lighting! Hidden under the shade of this new lamp is a reflector that focuses indirect light up to the ceiling and diffuses it evenly over the whole room. It's the bright-but-soft, flattering kind of light you need for entertaining. Because there is no glare, not a single heavy shadow, it's especially fine for bridge games. And there is a separate switch that turns on direct light for reading.

Pictured right is the outstanding reflector lamp value we know of. Its three-candle base is beautifully finished in gold or in bronze. Its pleated silk Celanese shade comes in gold, tan, rose or green, edged in braid to match. See it today at your Public Service Store. Only

## Of Interest To WOMEN

Household  
Hints

### Books Will Push Back the Walls Encompassing a Woman's World

**Women Writers are Enjoyable Reading for Women**

The four walls which encompass a kitchen or even the entire house, make the woman's world a small one, if she will have it so. Cooking three meals a day, keeping clothes washed and mended, making a clean and comfortable home for her family, take time enough to prove the saying: "Man works from sun to sun, but woman's work is never done."

Few women find their tasks entirely without pleasure. There is a creative element in homemaking and there is joy in creating. But a world which is never-changing becomes ceaseless and crowds the spirit.

Few women can—or would it they could—shut up their homes and leave them to run themselves and go off on a pleasure trip for widening their horizons. So most women grow irritated with the sameness of life, envy their husbands' opportunities for contacts, and daily realize that the most monotonous thing in their lives is themselves.

**Books Make Contacts**

Books are the most accessible source of making new contacts, knowing new modes of living, of adding space and breadth and height to the world within a home. Most women will protest, "But I never can read—I just don't have time." To that there's just one answer. Someone a very wise someone, once said, "We always can do the things we want to, unless they are physically or mentally impossible," and for most women, reading isn't either of those.

Granted that a woman wants to read, the logical question is "What shall she read?" The answer depends entirely upon the woman's individual taste. Reading should be a pleasure and not a task. The woman finding no pleasure in her reading has failed to do sufficient exploring in book realms to discover just what are her tastes.

Fiction with women more than men is popular reading. Some women, like their husbands, like detective stories, some prefer "drawing room" novels, some like clever sophistication and some prefer simplicity.

Books written by women will usually have an appeal for other women, perhaps because a woman's philosophy of living is more comprehensible to women, perhaps too because women see events and character somewhat alike having had their eyes focused and affected by somewhat the same experiences.

**Domestic Story**

Margaret Ayer Barnes, several years ago, wrote a prize winning novel, "Years of Grace," which has a serenely most women will find both stimulating and reassuring. It is a domestic story, about a woman whose experiences in life were much the same as any woman's and whose strength gives one faith in character. This book is one of the collection in the Antioch Public Library.

For the woman who enjoys studying people, who can laugh at the whimsies and faults of herself and her friends, Jane Austen's writings will perhaps appeal—especially if the reader as well enjoys the old fashioned story of romantic love. Jane Austen led a life of seclusion, from the world, and yet her novels show an amazing knowledge of what makes up the world, not only of her time but of the present. "Northanger Abbey," "Pride and Prejudice," "Sense and Sensibility," will leave the reader who likes this author looking for more, for she is either greatly enjoyed or poisonously disliked by most people.

"Jane Eyre" by Charlotte Bronte is another "woman's story" which many women enjoy. "Wuthering Heights" by Emily Bronte is another. The Bronte sisters, like Jane Austen, led an austere life depending entirely on themselves for amusement.

If it's a thriller you're after, "Frankenstein," recently produced in the movies, and one of the first stories of its type written, will fit the description. "Frankenstein" was the only published work of Mary Shelley, wife of England's renowned poet.

**George Elliot**

Mary Ann Evans, masking under the masculine identity of "George Elliot," wrote several novels—"Middlemarch," "Silas Marner," "Adam Bede" are the most familiar titles about the life of simple people of simple virtues. Library shelves or lists of books will yield the names of many other women authors including Zona Gale, Edna Ferber, Martha Ossorio, Sholom Kaye Smith, Anne Douglas Sedgwick, Anne Parrish, Willa Cather, Kathleen Norris,

Margaret Widdemer, Margaret Podlar, and scores of others.

Women who enjoy poetry will find the writing of contemporary women poets contains much that is intriguing and satisfying reading. Edna St. Vincent Millay (whose "Portrait of a Neighbor" appeared on this page several weeks ago), Alina Killmer, wife of Joyce who wrote "Trees," Adelinda Crayay, Emily Dickinson of an earlier period, Amy Lowell, can be found in collections of poetry or in separate volumes of their works. Many women appreciate the humor of Dorothy Parker's verse.

As for the worlds of drama, travel, history and biography, women writers can be found there too, though perhaps not so plentifully. When women authors have been exhausted, there are always the men to turn to. Many of them, in their way, are even more delightful than their sister writers.

"The world lies before you" is not after all such an exaggeration. Books can carry their readers into every known situation, every known emotion, every known place, and arena of society. Most of the books mentioned are available at Antioch Public Library.

### Antioch Woman Has Unusual Meat Recipes

A corner on different ways of cooking meats seems to be held by Mrs. A. Tackles who knows recipes for cooking chicken and lamb and thick steaks in unusual ways, using such unheard of ingredients as olive oil, lemon juice, mustard and even garlic.

Mrs. Tackles is confident that chicken baked with her recipe will never be dry even on the breast. She takes the juice of one lemon and beats it with a fork into olive oil (about a soup plate full) until the olive oil becomes thick and white with the consistency of molasses. Then the chicken, which has been rubbed inside and out with pepper and salt after having been prepared for baking, is placed in the oven with some of the oil mixture placed on the outside and a little on the inside if desired.

During the baking, the fowl should be basted every fifteen minutes with the oil preparation, Mrs. Tackles says, and when all the olive oil has been used, the grease in the bottom of the pan should be used for the basting. This will leave the chicken moist and delicious in flavor.

#### To Broil Steak

For her steak broiling recipe, she advises inch and a half sirloin steak which should take about an hour and a half to broil, during which time the meat should turn it at short intervals. For this steak, Mrs. Tackles makes a paste of 1 tablespoon flour, a tablespoon mustard, pepper and salt and worcesterhire sauce. She spreads this paste and butter on the meat before broiling.

When cooking lamb, she takes three or four pounds and cuts it up in chunks as for a stew, then browns it in a skillet with butter. She then puts the lamb in a stew pan and browns one or two onions in the grease, then places them on top of the meat in the kettle and adds a can of tomatoes. This is stewed in very little water. When the meat is almost done she drops in small potatoes. One kernel of garlic may be added to this recipe if it is desired.

#### Pork Roast

When cooking a pork roast Mrs. Tackles salts the top in a number of places then places salt, pepper and small pieces of garlic in the salts and covers with tomatoes.

In discussing the use of garlic for flavoring, Mrs. Tackles said that most people don't know how to cook with this seasoning. "They often use too much," she said. For flavoring a salad, she suggested rubbing a kernel of garlic around the inside of the bowl.

#### Old English Carnival

In October is held the goose fair, believed to be the oldest existing carnival of its kind in England. The sheriff of Nottingham gives a big ball to which all the mayors and mayresses of the land are invited. It is supposed to be held to aid the lace trade and each guest is asked to wear some article of lace, old or new, who in turn receives a Nottingham lace handkerchief.

**Once a Tropical World**

The story that the ancient coal deposits tell is that of a great change in climatic conditions that has been brought about through the ages. Scientists believe that at one period in the world's history tropical conditions must have been present the world over.

### NATION'S LAW MAKERS SEEN AS HARD WORKERS

**Banker Tells of Labor Put in by Members of Congress on Mass of Technical Measures**

OUTLINING legislative procedure, Robert V. Fleming, President Riggs National Bank, Washington, D. C., gave the recent convention of the American Bankers Association a description of the difficulties and problems confronting the law-makers. Mr. Flemming said in part:

"The most important part of organization of the two branches of congress is election of standing committees. There are 34 standing committees in the Senate and 46 in the House. These are the workshops of Congress and the real work of lawmaking is done in Committee Rooms.

"The task of legislating for 124,000,000 people is a tremendous one. Of recent years approximately 20,000 bills are introduced annually in the two Houses. Only a small percentage become law, but they must be weighed in committee accepted or rejected, perhaps amended, reported out, and then considered on the floor.

"Lawmaking involves about 30% of hard and unspectacular work and about 1% of oratory. Few tasks appear so easy and are so difficult as enactment of sound and satisfactory legislation. Few individuals in any line of activity work harder or longer hours than the chairman of the important committees during a session. I have great sympathy for the members of Congress whose constituents expect undivided attention to every piece of legislation in which they may be interested. From my personal observation, they earnestly and conscientiously endeavor to do all that is humanly possible.

#### Public Hearings

"When a bill is introduced, referred to committee and printed the next step, if it is of measure of considerable importance, is to conduct a public hearing. The committee makes an effort to listen to anyone who cares to be heard either for or against a measure, although witnesses are frequently limited in time. Members of the Cabinet and other officials of the administrative departments of the Government usually testify on measure in which they are interested and furnish the committee information in executive session or otherwise. In this way the Administration takes a prominent part in shaping legislation.

"Due to pressure of work and the fact that it is impossible for members of Congress to be technical experts on every subject of legislation, the committee are inclined to give consideration to the merits of arguments presented in testimony and the recommendations of the Cabinet and other officials. It is therefore highly desirable, both from the standpoint of Congress as well as those affected by proposed legislation, that the latter have an opportunity to discuss frankly the effects of such legislation.

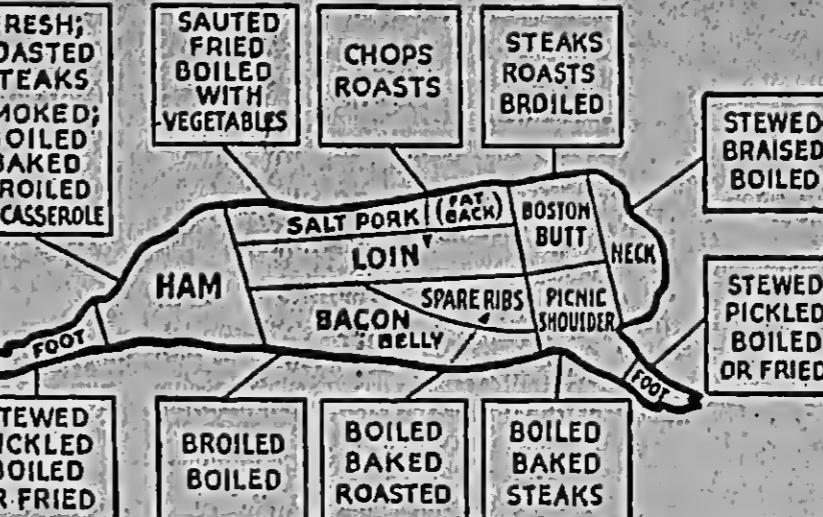

"We sometimes complain about the technicalities of legislation, but when we observe organized minorities endeavoring to force class legislation through one House it is a comfort to know such measures may be caught in the meshes of technical procedure in the other and there suffer what is termed automatic asphyxiation."

"We sometimes complain about the technicalities of legislation, but when we observe organized minorities endeavoring to force class legislation through one House it is a comfort to know such measures may be caught in the meshes of technical procedure in the other and there suffer what is termed automatic asphyxiation."

PORK possesses a triple advantage for the family menu. It is inexpensive. It is delicious when properly prepared. It lends itself to preparation in a wide variety of appealing ways.

#### Deviled Pork Chops

Mix together 1 tablespoonful of chili sauce, 1 tablespoonful of sugar, 1/4 teaspoonful of dry mustard, 1/4 teaspoonful of paprika, a teaspoonful of salt and 1 tablespoonful of lemon juice. Add if liked, a teaspoonful of Worcester sauce. Pan broil lean pork chops on one side only, then garnish them slightly on both sides and cover with the sauce. Cover and finish cooking, turning now and then. Make a mound of mashed potatoes and arrange the chops in pyramidal form about them. Serve very hot with the sauce poured about the mound.

The best pork comes from young porkers. The flesh is a grayish white, fairly firm and velvety in texture, and with a fine smooth grain. It should appear juicy, but not wet or watery, and should be

## Grant School Band Mothers Hold Party

## Volley Ball Tournament Played in Gym Class

A card party, sponsored by the mothers of the orchestra and band members was held in the auditorium on Saturday evening. The party was well attended and the evening proved a very enjoyable one for everyone. The band and orchestra played several selections as a form of entertainment, aside from the games and the cake walk.

Boys in the first hour physical education class are about to complete a volley ball tournament. The class has been divided into four teams, of which Weissel, Vasey, Anderson, and Balakas are captains. The teams have been playing two games each Monday and Wednesday, and a record of the games has been kept. The tournament will be concluded on Wednesday of this week, after which the winning team will play the faculty team.

New officers were appointed last week for the news project of the senior English class. Bessie Wilkinson and Kathryn Dankelman are the news typists, Geraldine Blester and Robert Walsh are proof-readers, and Cornelia Rosing is secretary and scrap-book editor.

Students in the manual-training classes have been required to use shop machinery in order that they may be able to use the electrical devices which the shop offers. This procedure will absolve the high school from all responsibility in case of accidents in the classes.

The basketball team will face a vigorous schedule this week, having three games within five days. The first of those games will be played Tuesday night at St. Mary's. A conference game will be played Friday night, with Crystal Lake, on the home court. The third game is scheduled for Saturday night with McHenry, at McHenry.

The basketball squad engaged in a free throw tournament Wednesday afternoon during the regular practice. Gerald Klaus proved to be the champion after eliminating Walter Gerretsen in the semi-finals. A tournament of this kind will be held each week hereafter with the idea of improving free-throwing.

The freshman and junior girls' basketball teams played an exhibition game last Friday afternoon. The junior girls won by a score of 28 to 3.

Students of the beginning sewing class have started on a new project—a make-over. Several of the girls are making up-to-date skirts or jackets from out-of-style coats. The

## Inglewood Man Announces as Candidate for Re-election

Supervisor Frank Stanton of Ingleside, chairman of the board of supervisors of Lake County, has announced that he will be a candidate for re-election in Grant township.

A year ago Mr. Stanton indicated that he would retire from the board, but according to his statement made last week, he will campaign for re-election to prove to various taxpayers' organizations, which have been bitterly criticizing him, that the majority of the voters are satisfied with his work.

## Fox Lake Church Stages, Jade Necklace

A cast of eight Fox Lake people under the direction of Clyde C. Hill presented "The Jade Necklace," a three-act comedy last night at the Grant Community High School Auditorium. The play was sponsored by Fox Lake Community Church, proceeds to go to the church.

The cast of the play was as follows: Muriel Moreland, Pearl Juul; Doris Lee, Lenore O'Brien; Mrs. Lee, Julean Klem; Julianne Barnes, Hazel Nerdstrom; Hetty, the maid, Ruth Bundo; Riehard (Dick) Syvester, Redger Perry; Benton Bir Moreland, Roy Klaus; Bortram Hawtrey, Henry J. Coon.

Stage and property managers were Frank Ambacher, Dwight Riggs, and George Lutz. During the intermissions between acts musical numbers were presented by Hazel Norstrum, Doris Monkman, and Lillian Schick.

The play was well directed and staged and played to a good-sized audience. The exact amount cleared on the ticket sale is not yet known.

Mrs. Krabber of Ingleside died Mrs. Helen Krabber of Ingleside, 63 years old, died Monday at the Lake County hospital. The remains were removed to Chicago for services and interment.

girls are deriving great satisfaction out of making seemingly old and useless clothing into garments of attractive present day styles.

The Bulldogs traveled to Harvard Friday night to be trounced by a score of 42 to 8. Grant did not seem able to get started, and by the end of the half, they were trailing 26 to 5. The game was hard fought throughout, and many penalties were inflicted on both sides.

The second team also suffered defeat by a score of 20 to 16. Mollie made an especially good showing in that game.

A group of students made a cross country hike from McHenry to Fox Lake late last Friday night. The jaunt was made necessary when Bob Johnson's car developed motor trouble, on the return trip from Harvard where the party had attended the basketball game. Those in the party were Harry Bandel, Gerald Klaus, Evelyn Pester, Bernard Britz, Ralph Aman, and Bob Johnson.

## Eternal Water Power Assured to the World

A curious provision of nature is that she made scarcely any sign of her immense stores of petroleum until the automobile was invented. But some day, the automobile will have to go electrically; and the water powers that furnish the electricity will never collapse.

The first American petroleum found in Pennsylvania did not appear in a large area compared with the newer fields of the Southwest and its use for illumination did not totally extinguish the candle. The first real substitute in cities for the more primitive lights was artificial gas. How it blazed and effervesced in the good old days, before it was muted and otherwise subdued to its present pleasing servitude. Even at its earliest, gas provided the real glare necessary at public gatherings and on the dramatic stage. At last, people could really see objects after dark.

When electricity came in, the illumination became still more vivid—although the terminology and the formulas still harked back to "candle power." "So long as grass grows and water runs," electrical power will hold out; and the rivers are timeless. Besides, there are yet the tides of the sun, and the enlivening energy of the sun, to reckon upon.—St. Louis Globe-Democrat.

Frozen Meat Brought to England Long Ago

New Zealand celebrated the Jubilee of the first shipment of frozen meat to Great Britain, but it may be recalled that an interesting experiment of the kind was made as long ago as 1816, writes a columnist in the Manchester (England) Guardian. In January of that year three Eskimos arrived at Horwich bringing five sledges loaded with pemmican, blubber and other game, frozen and packed in tight cases. The enterprising northerners had to pay £50 (nominally about \$250) on the cargo (the wicked Cobden had not then interfered with the sacred principles of protection); and another £10 for conveyance to London, but the game was in such excellent condition that it found a ready sale at high prices so that they were able to remain in England, spending their profits in royal style, for several months. Despite its success, however, the venture was not repeated.

## Graduates Offered Chicago "U" Course

Tentative plans for a correspondence course to be offered a group of post graduate students at Antioch Township High School in cooperation with the University of Chicago, have been made, according to L. O. Bright, principal of the high school.

The course will be open only to graduates ranking in the upper fourth of their class for scholarship. Interested students will be allowed to make their choice of a course from the humanities or social sciences.

Completion of the course will give the student the privilege of taking an examination for credit at the University of Chicago. The cost will be paid by the school. Mr. Bright plans to take charge of the class.
